PREFACE

The Personnel of the Naval Shore Establishment (PONSE) is designed to assist Department of the Navy managers in estimating appropriate work force requirements and planning for future resource needs. Although the figures and statistics are generally accurate, they should not be used for ceiling reports or budget justifications without verification.

The PONSE is published periodically and provides a statistical review of Navy-wide population data as well as studies of specific subgroups of the civilian and military population ashore.

Questions about the data, specific suggestions for special reports, and general comments on the PONSE should be directed to: Office of the Chief of Naval Operations (OP-140F), Navy Department, Washington, D.C. 20350.

INTRODUCTION

The data contained in this report have been derived from data files located in the Analysis and Research Unit, Work Force Information Section (OP-140F), Personnel Management and Evaluation Branch, Civilian Personnel Policy Division, Office of the Deputy Chief of Naval Operations (Manpower, Personnel and Training). The data were obtained from the following sources:

- Personnel Automated Data System (PADS)
- Monthly Report of Personnel Data, Form 12280/12
- Computer Assisted Manpower Analyses System (CAMAS)
- Recurring or one-time special reports

Civilian personnel data cover full-time direct-hire civilian employees in the United States, territories and foreign countries unless otherwise designated. The data exclude the following categories: those on leave without pay for scheduled periods longer than 30 days; persons carried in any kind of leave status after the last day of active duty as specified in a reduction-in-force notice; persons on leave with pay pending disability retirement; disadvantaged youths under the Stay-in-School Campaign and the Summer Aid Program; Public Service Career employees; employees in developmental jobs; persons working without compensation; and persons serving at \$1.00 per year.

Note: Data were not available at the time of this issuance for the following: Full-Time Civilian Employees by Activity; Exclusive Recognition and Negotiated Agreements with Labor Unions. The conversion of employees to the Merit Pay System (GM) did not occur until 1 October 1981. Since this PONSE issuance is as of 30 September 1981, the 13-15 population are all shown as General Schedule employees. Senior Executive Service (SES) employees are not included.

Navy military personnel data at those activities which employ civilians have been compiled from data furnished by the Naval Military Personnel Command.

The data displayed in this report are formatted so as to be usable by the reader. However, certain precautions should be observed when extracting or combining information or statistics from various tables and charts. Since several data bases have been utilized, each having a unique composition, some internal inconsistencies may occur. For example, employees in Guam, Hawaii, and some populations in Puerto Rico are not subject to minority reporting requirements and are not reflected in the Navy Minority EEO statistics. Therefore, the total Navy population figures appear to be smaller in EEO reports than those from general population data bases.

The reader should take care to note the descriptive headings of all charts and tables and avoid combining or comparing those based on separate source data.

Figures in all the charts and some of the tables have been rounded for clarity and have been so indicated.

TRENDS IN CIVILIAN EMPLOYMENT

TOTAL DEPARTMENT OF THE NAVY DIRECT HIRE WORK FORCE

(Includes full-time permanent, full-time temporary, part-time, and intermittent employees.)

PAY PLAN	31 MAR 1981	30 SEP 1981	CHANGE
GS	170,700 (55%)	172,100 (55%)	+ 1,400 (+ 1%)

Since the March 1981 edition of the PONSE, there has been no change in the overall ratio of General Schedule (GS) and Federal Wage System (FWS) employment. GS employment still represents 55 percent of the direct hire work force. Civilian employment levels for Marine Corps are included in the above data. The following employees are excluded from the 30 September 1981 employment data:

Federal Junior Fellowship Program Employees	106
Stay-in-School Employees	2,195
Summer Aids	2,759
Worker Trainee Opportunity Program Employees	340
TOTAL	5,400

These are civilians hired under special programs and are not subject to statutory ceiling limitations. Additionally, those on sick leave pending separation or disability retirement have been excluded from the onboard count.

The inter-grade movement matrix is a comparison of the Navy general schedule population at two points in time. What it shows is rate of movement from one grade to another or out of the Navy in the September 1980 - September 1981 period. For example, of the 373 employees in GS-1 as of 30 September 1980, 14 percent remained in GS-1; 22 percent were promoted to GS-2; 26 percent were promoted to GS-3; 1 percent were promoted to GS-4; and 35 percent left the Navy.
